RECOGNIZING THE PEOPLE BEHIND THE TECHNOLOGIES THAT DRIVE BUSINESS SUCCESS

WHO'S WHO
IN INFORMATION TECHNOLOGY
AVON PRODUCTS
Sue Liddie
Group Vice President, CIO
At Avon, Liddie’s responsibilities extend beyond internal operations to encompass managing the needs of the direct-sales company’s six million field reps. She was named CIO in 2014 after joining Avon in 2010.

BEAM SUNTORY
Allison Radecki
CIO
Radecki has been helping the spirits maker unite all IT resources into one high-performing, interdependent global team. That’s one reason she was named a 2017 Visionary by CGT.

CALLAWAY GOLF
Sai Koorapati
Vice President, Global IT
Koorapati was named CGT’s 2016 “CIO of the Year” as he helped the sporting goods company move its sales, operations and finance groups to predictive, real-time analytics reporting and consolidate the design-to-manufacturing system portfolio to one global PLM application.

CAMPBELL SOUP CO.
Paul Amorello
VP, IT Global Business Services

CLOROX CO.
Manjit Singh
Senior Vice President, CIO
A CGT Visionary back in 2008 while CIO of Chiquita Brands International, Singh has been directing the technology initiatives at Clorox since 2014. He has also been recognized by InformationWeek and ComputerWorld.

Kate Grasman
Director, IT Business Operations

COCA-COLA CO.
Alan Boehme
Global Chief Technology Officer, Chief Innovation Officer & Head of Enterprise Architecture
Boehme led Coca-Cola’s rollout of “The Bridge,” a commercialization program for relevant start-up technology companies. He’s also been helping Coke move to the cloud globally.

WHO
Jon Harding
Global Chief Information Officer
Conair Corp.

During the 13 years that Jon Harding has served as Global CIO at Conair Corp., the company has doubled in size and expanded its operations to nearly 40 countries worldwide.

Before joining the personal/home care appliance manufacturer, Harding spent 17 years at packaged goods giant Kellogg Co. in a succession of positions with increasing responsibility and scope. His tenure began within Kellogg’s UK, then moved to a pan-European role before Harding was sent “across the pond” in 2001 to lead IT at the newly acquired Keebler business in Chicago.

In his time at Conair, Harding has guided the rollout of a centralized ERP platform that replaced 25 disparate legacy systems, the integration of the global businesses into a single IT network, the assimilation of eight acquired businesses and the launch of nine new ones.

The most significant challenge he currently faces is “figuring out which of the many emerging technologies are implementable in our organization to continue to drive our digital transformation.”

“Consumers will expect a much more ‘curated’ experience ... and brands will have to deliver.”

That aforementioned digital transformation of the consumer goods marketplace is providing “a number of opportunities to more closely engage with the consumers of our various brands and product categories through omnichannel consumer interaction” via call centers, email, live chat, social media listening and other tools, he explains. “Another key aspect of the transformation is direct-to-consumer e-commerce in conjunction with our retail partners.”

To address that last point, Harding has been working with Conair’s various marketing teams to “roll out a standard e-commerce platform in multiple countries.”

Over the course of the next five years, “there will be more and more ways for brands and manufacturers to engage directly with consumers, and to receive and act on increasingly more real-time feedback,” Harding predicts. “Consumers will expect a much more ‘curated’ experience encompassing all aspects of product interaction — and brands will have to deliver in order to succeed.” CGT
Karenann Terrell
Chief Digital & Technology Officer
GlaxoSmithKline

When she came on board at GlaxoSmithKline this summer, Terrell was given a “company-wide remit to transform how new technologies are used to improve performance,” according to GSK’s official release.

The new role puts Terrell in charge of developing the company’s digital, data and analytics strategy, working with “a wide range of partners from inside and outside the healthcare sector to bring new technologies to GSK [and] improving how we interact with ... customers and consumers,” the release stated.

Before joining GSK, Terrell served as CIO of Walmart for roughly five years, leading a team of more than 5,000 through all technology activity for retail, infrastructure, back office and cyber-security. Among her unique initiatives was development of the “Walmart CIO Council,” a consortium of tech leaders from the retailer’s vendor partners who convened regularly to examine mutually beneficial ways to drive business growth by better serving shoppers.

The new role puts Terrell in charge of developing the company’s digital, data and analytics strategy.

Pre-Walmart, Terrell spent time as CIO of both medical manufacturer Baxter International and automaker DaimlerChrysler, where she had total tech responsibility for the Chrysler Group and Mercedes-Benz North America. She started her career in the automotive industry with a stint at General Motors.

A strong proponent of women in STEM (Science, Technology, Engineering & Math), Terrell is on the board of trustees for the New York Hall of Science, a hands-on science and technology center.

Industry accolades over the years have included recognition as “CIO of the Year” from the National Association of Software & Services, as a member of Fortune’s Executive Fantasy League “Dream Team” starting lineup, and as one of the “100 Most Influential Women in the Automotive Business” by Automotive News. In 2016, she won the prestigious Fisher-Hopper Prize for Lifetime Achievement in CIO Leadership. That award is presented annually by the Fisher CIO Leadership Program at the Haas School of Business, University of California, Berkeley. CGT
The new role puts Terrell in charge of developing the company’s digital, data and analytics strategy.

HANESBRANDS INC.
David Morrow
Director, IT

Vivian Nunn
Director, IT-Organizational Change Management

HASBRO, INC.
James Cloherty
VP, Global IT Development

Don Sanders
Director, IT Platform Development

HERSHEY CO.
Carlos Amesquita
CIO

Efforts to modernize Hershey’s existing systems to deliver real-time insights through an adaptable, simplified and cost-effective platform led to Amesquita being named a finalist in last year’s “CIO of the Year” competition.

Paul Chemenoor
Director of Global IS Strategy

J.M. SMUCKER CO.
John Russell
Director, IS Infrastructure & Operations

Michelle Kasson
Director, Information Services

JOHNSON & JOHNSON
Kevin Puppe
Senior Director, IT

Puppe and his team have helped J&J deploy improved capabilities in advanced analytics and insights, trade promotion optimization, shopper/category management and unified communication/collaboration, leading to a 2016 nod among CGT’s “Visionaries.”

Derrick De Leon
Director, IT & Data Management

Anthony Milinowicz
Director, IT Innovation Center

KELLOGG CO.
Brian Rice
Senior Vice President, CIO and Global Business Services

Lanny Timan
Director, IT Strategy

KIMBERLY-CLARK
Suja Chandrasekaran
CIO

Chandrasekaran was transitioning from one key role in the consumer goods marketplace — Global Chief Technology Officer and Chief Data Officer at Walmart — to another when CGT put her on the cover of the 2016 “Visionaries” issue.

Dave Williamson
Director, IT Project Delivery

LAND O’LAKES
Michael Macrie
CIO

Stacie Urban
IT Director

L’ORÉAL AMERICAS
Mary Pauline Murphy
AVP IT–Process Leader: Americas Sales B2B Applications

Murphy manages the sales business to business project portfolio, which includes the areas of sales planning, productivity, execution and ordering. “I am fortunate to work with a smart and dedicated team that’s committed to excellence in providing the best and newest selling capabilities and technologies to the business.”

MADISON REED
David King
Chief Technology Officer

King’s work instilling a data-driven culture at this new-age hair-color company earned him a spot on CGT’s “Visionaries” list this year. Recent endeavors include evaluating machine learning solutions.

</table>
Sandra Harris  
**Vice President, Global Business Technology**  
The eight-year company veteran will be stepping into Schneider’s shoes at the end of the year. Corporate CFO Scott Roe praised her “excellent balance of technology, finance and business acumen.”

Lee Solomon  
**Senior Director, Global Business Technology Strategy & Planning**  
Solomon is responsible for articulating technology’s role in enabling the corporate strategy as well as overseeing portfolio management and IT strategic planning for the company, a $12 billion apparel and footwear powerhouse.

VF CORP.

Martin Schneider  
**Vice President, CIO**  
Among the finalists for CGT’s 2016 “CIO of the Year” award, Schneider will retire at the end of 2017 after 11 years leading the apparel maker’s global business technology organization.

WHIRLPOOL CORP.

Daniel Derooij  
**Director, EMEA IT**
